ZEKE PORTER

Writes An Interesting Letter From the Twin Cities.

[Special to BOURBON NEWS.]

MOLINE, ILL., Feb. 17, 1902.

Since leaving Kentucky two weeks ago I have seen more winter than I ever saw before within the same length of time, and it has been sure enough winter, too, the thermometer one morning registering twelve degrees below zero, enough to freeze a Southerner to death to think of. My object in visiting this frigid climate was the seeking of better health, and I am thankful in stating that my mission, so far, has been partially successful.

One of the most interesting cities of its size in the country is the one from which I write. With a population of 22,000, the majority of which is of Swedish nationality, Moline is most altogether a manufacturing city. It is here where the celebrated Moline plows and wagons—many of which are seen and used in "God's Country," ours—are made. Besides the Moline Plow and Wagon Company, the John Deere Company, manufacturers of plows and other agricultural machinery, is located here, and these two are claimed to be the largest factories of the kind in the world. Am sorry I cannot dwell longer on Moline, as she not only manufactures the goods named, but furniture, pipe and reed organs, rolling mill machinery and nearly everything else made on earth.

Passing over a steel bridge that spans a canal formed by the waters from the mighty Mississippi, one enters the celebrated Rock Island, owned by the United States government and on which is located the largest arsenal in the world. This island is three miles in length, nearly one mile wide and in the springtime as pretty and attractive as any park in the country. All kinds of factories for the manufacture of army equipments are on this beautiful spot and they are run by probably the finest water power on earth.

Boarding a trolley car in the heart of Moline, after a ride of twenty minutes, including the many stops, the passenger is landed in the center of Rock Island, Ill., another city of 25,000 population and equally as interesting as the first named. This is strictly a lumber and commercial city, which also has a number of factories. Moline and Rock Island are virtually one city and both in Rock Island county, though under separate governments. The county seat is Rock Island.

Changing cars at Rock Island one is whirled across a short steel trestle onto Arsenal (Rock) Island, thence over the big steel bridge ("longing to the U. S. Government") that spans the Mississippi river into Davenport, Iowa, the prettiest, cleanest city in the Northwest, with a population of about 60,000. Had I the space it would afford me great pleasure to detail at length on the beautiful parks, fine department stores, hotels, theatres, homes and other attractive features of the Tri-Cities, with, in all, a population of over 100,000. While visiting in Davenport a few days ago I had the pleasure of meeting Mr. Charles Bashford, formerly of Paris. Charlie, since I last saw him in old Kentucky, has grown to be a large and fine-looking fellow. He is holding a fine position as manager of the Davenport office of R. G. Dunn & Co.'s mercantile agency, but says "Kentucky is the only place on earth."

ZEKE T. PORTER.

The Gny Stock Company, a very creditable repertoire company, presented "Foul Play" at the Opera House last night to a fair sized audience and gave general satisfaction. It is really a much better company than many of the larger and more pretentious ones. The specialties are very good. To-night will be presented "The Vendetta," and to-morrow afternoon for the matinee the old-time favorite "Rip Van Winkle." The engagement will close to-morrow night with "The Defaulter."

WEDNESDAY NIGHT FIRE.—The fire company responded to an alarm from box 14, at 11:15 Wednesday night. A double frame house occupied by some colored people on Short street, was slightly damaged.

ELECTRIC light wiring, Electric door bells, private telephones, speaking tubes. Estimates free. Address or call on J. W. Grinnan, Electric Supplying House, 510 Main street, Paris, Ky. 21Feb11

MUSICAL.—The committee managing the chorus concert for the benefit of the Elks' building, have completed all the preliminary arrangements and the first rehearsal will be held in the basement of the First Presbyterian church on Monday evening, Feb. 24, at 7:15 sharp. All members are earnestly requested to be present.

James L. Buford, County Attorney of Franklin county, and Miss Mary B. Wheeler were married at Maysville, Wednesday morning.

Yesterday's Maysville Bulletin, says: "Mr. L. B. Keal, of Nepton, and Miss Lillie S. Stivers, of Paris, were married here this evening by Elder R. E. Moss."

League of Bluegrass Pythians Organized.

The Bluegrass Pythian League was organized at Lexington on Tuesday night. It is composed of lodges from Lexington, Beattyville, Jackson, Wilmore, Nicholasville, Winchester, Paris, Harrodsburg, Danville, Cynthiana and Versailles.

The purpose of the League will be to promote the general interests of the order by becoming better acquainted. It has been proposed that each lodge act as host for the other lodges once each month, although this has not yet been definitely decided upon.

The conference occurred on the 38th anniversary of the establishment of the order and there was considerable secret work done. J. D. Boone, of Lexington and W. W. Semones, of Harrodsburg, were initiated, and the local Uniform Rank received seventeen applications for membership. This branch of the order which was recently organized, is showing wonderful vitality. Should the seventeen men be accepted it will give Lexington a complete company.

A lunch was served after the lodge work had been completed.

The delegates from Rathbone Lodge, No. 12, of this city, who were in attendance, were: C. B. Mitchell, Benj. Perry, H. L. Terrill, A. J. Lovely, L. Wollstein, J. T. Ritchie, W. H. White and G. D. Mitchell.
